*When buying a home, consider these 5 tips
to save money & ensure you're properly covered*

1. Maintaining a security system can reduce your homeowners insurance up to 20%.
2. Installing smoke detectors in older homes can save you up to 10% on insurance.
3. Make your home disaster resistant by adding storm shutters.
4. Make sure your policy uses "replacement cost valuation" so you don't have to worry about depreciation in case of a total loss.
5. Schedule valuables such as jewelry to your policy to expedite a claim if items are stolen.

The Wurzel Insurance Agency is happy to be a resource for all your insurance questions and needs. Contact us today for a free evaluation.
